## Summary

---

### Aspiring Frontend Developer

I am an aspiring Frontend Developer currently pursuing my studies at the Specialized Institute of Applied Technology. With a solid foundation in HTML, CSS, JavaScript, React, and Tailwind Css, I am passionate about creating visually appealing and highly functional web applications. I am eager to apply my skills in a collaborative environment and continuously learn new technologies.

## Projects

---

### Bakhu (bakhuu.netlify.app)

An integrated e-commerce store developed using React, connected to an external API for product data. The store features a smooth user interface and a dashboard for managing products.

**Frontend:** Reactjs, Css, axios (for API handling)

**Deployment:** Hosted on Netlify for seamless deployment and scaling

- Designed an attractive and user-friendly interface.
- Built a responsive e-commerce store

### renta1cars (renta1cars.netlify.app)

Rentacars is a web application designed for car rental services, offering users an intuitive interface to browse, select, and rent vehicles. The platform features a dynamic and responsive design, ensuring a seamless experience across various devices

**Frontend:** Reactjs, Css

**Deployment:** Hosted on Netlify for seamless deployment and scaling

- Vehicle Listings, Search and Filter, User Interface, Responsive Design
